

A close-up photograph of two young men smiling and looking towards the right. The man in the foreground has dark hair and a beard, wearing a light blue t-shirt. The man behind him has light brown hair and is wearing a dark t-shirt. The background is blurred, suggesting an indoor setting with large windows.

Study  
**Asset Management,**  
**MSc** at the UE

Become an expert and start your  
international career in finance.

## Why the UE?

The financial world is becoming increasingly complex and diverse. Managers must be knowledgeable in broad subject areas and be able to react to complex issues at any time to meet this fast-paced industry's high demands. In our Master's programme Asset Management you will not only be optimally prepared for the role of an internationally operating financial company manager. In addition to the basic economic know-how, you will also learn a critical and detailed understanding of finance.

In addition to professional skills and knowledge taught by excellent professors from science and business, you will also strengthen your scientific methods during the master's programme. Through interdisciplinary modules and individual support, you will expand your social skills in order to successfully complete management roles. Case studies, business games, project and research internships with well-known business partners also expand your theoretical education. Depending on the time format in which you complete your studies, there is still enough time for a job to apply your theoretical knowledge directly in practice.
